

## INSANE WHEN HE KILLED HIS MAN

Detectives Looking for Rev.  
John H. Carmichael, Mur-  
derer of Browning.

TOOK TRAIN TO CHICAGO

NO ADDITIONAL LIGHT THROWN  
ON THE TRAGEDY.

Evansville, Ind., Jan. 9.—Detectives left shortly after midnight for an isolated spot twelve miles below Evansville, Ind., to arrest a man who answers the description of Rev. John H. Carmichael.

Port Huron, Mich., Jan. 9.—With the situation here today of every known case that would tend to clear up the little Run Methodist church murder mystery, interest tonight is centered in the search being made in Chicago for the Rev. John H. Carmichael. Three detectives who have been working on the case are in Chicago searching for Mr. Carmichael, for whose arrest the charge of murdering Gideon Browning, a man who was killed in the church and burned, is being made.

Evidence of Insanity.

Mrs. Carmichael was brought here for further examination by Prosecutor Brown. She told the prosecutor that her husband had for some time suffered from an affection of his head, which caused him to form and discharge from his ears. This trouble is taken to support the belief that Carmichael must have been insane, if he killed Brown.

Was Familiar With the Church.

In corroboration of the belief that the murder was committed by some one thoroughly familiar with the church, it is pointed out that one of the two stoves in the edifice did not draw well, and that it was in the other stove, capable of developing a roaring fire, that the body was cremated. Browning was evidently attacked and killed in the rear of the church, and then dragged down the aisle to the stove with the better draft.

Two of the generally accepted possibilities are to the effect that the minister may have been led by a disordered brain to make his way back to his home in West Virginia, or his former pastorate in Nebraska.

The Detroit police today examined the two novs which Carmichael had written and found in them many melodramatic references to violent death. In one place the stories described the burning of the bodies of two men. Some theorists claim to see in these manuscripts corroboration of their idea that the preacher had become unbalanced, and that he thought much of killing.

Boils, Pimples  
And Blackheads

Are Caused by Blood Impurity Which  
May Be Removed in a Few  
Days by Stuart's Cal-  
cium Wafers.

Trial Package Sent Free.

Why suffer from boils, pimples, blackheads, eruptions of all sorts, when you may by the simple act of letter writing bring to you proof that blood may be purified in a few days or weeks at the latest?

Stuart's Calcium Wafers contain the most powerful blood purifier known to science—Calcium Sulphide. They contain other known purifiers, each having a distinct and peculiar effect to perform.

Instead of a face full of pimples, or a body which is assailed with boils or eruptions, you may enjoy, if you will, a skin normally clean and clear by the simple use of Stuart's Calcium Wafers.

They act almost like magic, so rapid is their work of purifying blood. You know the blood is pumped through the lungs every breath. The air purifies the blood.

Stuart's Calcium Wafers help the lungs do their work by segregating the impurities so that the lungs may enrich the blood.

Then they carry off the waste poisons and decay through the bowels. There is their work of purifying blood. You know the blood is pumped through the lungs every breath. The air purifies the blood.

## OVERFIELD RETURNS AND INDORSES YUKON-PACIFIC-ALASKA EXPOSITION

C. P. Overfield returned from Seattle yesterday filled with enthusiasm over the Yukon-Pacific-Alaska exposition to be held in that city this year. Mr. Overfield went to Seattle as one of the Utah commissioners to look over the ground and determine what was best for Utah to do in the way of representation at the fair. He spent several days in consultation with the president of the exposition and other officials, made several visits to the grounds and made an investigation of the finances of the institution.

"My impression," Mr. Overfield said on his return, "was most favorable. The northwest is keenly alive to the importance of the fair, and is determined to make it a great success. Oregon is expending \$300,000 on her exhibit, and will ask for \$50,000 additional, realizing the value of the Lewis & Clark exposition in Portland. Oklahoma is expending the same sum. I was entertained in Spokane by the commissioners for that city and found them very kind and helpful. I called upon Governor Bradley and found he had recommended the appointment of a commission for Idaho and an appropriation of \$50,000 for a building and exhibit."

"In Seattle the feeling is earnest in the desire that Utah have its own building. Many allusions of a gratifying nature were made in relation to the exhibits Utah has heretofore made at Chicago, St. Louis and Portland. One of the most desirable sites on the grounds has been allotted to Utah for a state building."

"Senator Wilcox of New York was in Seattle while I was there. His state is expending \$75,000 on its exhibit, and Senator Wilcox was there to make all necessary arrangements. The business management of the fair is in good hands, the hands of successful business men, and all partisanship has been eliminated. The main buildings are practically complete, although fifteen or twenty buildings are still to be erected, representing different governments and states."

Mr. Overfield will prepare a report on his trip to be submitted to Governor Sawyer and the commissioners. The other commissioners besides the governor and Mr. Overfield are D. C. Jackling, James Christensen and R. E. Allen. Already Sept. 16 has been set aside as Utah day at the exposition, and other days will be assigned to Oregon, Louisiana and other parts of the state, if thought best. The commissioners will ask the coming legislature for an appropriation of \$50,000 to enable them to make a good showing, and the whole program will depend upon the action of the lawmakers.

## WOOLEN MANUFACTURERS ARE SAID TO FAVOR CENTRAL STORAGE PLAN

"The eastern woolen firms and the eastern wool buyers are heartily in favor of the establishment of wool warehouses in Chicago."

This rather unexpected statement was made by a representative of The Herald yesterday in the Commercial club rooms by a wool buyer for a Boston firm, to whom was introduced by a local representative of the Chicago, Milwaukee & St. Paul railway. He continued as follows:

"It is to the best interests of the eastern mills to have such a storage warehouse in Chicago, as the western wool men propose. The hope is to be established, and the reasons are very simple. Under the present system the eastern mills have to tie up their money in buying wool in the clip at considerable expense and trouble, being obliged in most instances to buy up great quantities so as to have a year's supply on hand. They are taking risks in this, as their money is thus tied up for a long interval of time and a slump in the market makes it often disastrous. Under the warehouse plan the wool can be purchased as needed in Chicago at prevailing market prices, and there will be no necessity for long trips to the western states at great expense and trouble. Money that would otherwise be tied up in large quantities of wool can be put to work, and a slump in the market would involve no big losses to manufacturers. The scheme is a good one for the manufacturers, and just because it is a good proposition for the mills is one reason why I do not think it will materialize."

The buyer here quoted stated that while he was not buying wool extensively from producers at present, he found many clips for sale by producers who did not favor the warehouse plan. He said sales to eastern buyers were being made every day in this state, in Idaho, Wyoming and Montana, and said that the largest buyer, one for a Boston firm, had purchased recently in this state and in Idaho 3,000,000 pounds of wool.

Rev. John Haviland Carmichael while he was pastor of the Methodist church here, say he was expelled from the West Nebraska Methodist conference following charges of immorality.

The Carmichael family has relatives at the town of Grant, Perkins county, and it is thought the missing minister may go to that place.

Looking for Third Party.

Linna, O., Jan. 9.—A sensation was sprung locally in the Carmichael murder case today when two detectives working in Delphos, a village near here, and claiming to be from Detroit, divulged the information that they were looking for a third party in the murder. They claimed their belief was that a third party committed the murder and the body of Rev. Mr. Carmichael may yet be found.

## RED LIGHT OPENING LANDS EIGHT IN JAIL

Guests Come Who Were Not Invited—Sheriff Acts Promptly.

An attempt was made Saturday night by Nora Mason to open up her resort in the new red light district. Sheriff Joseph Sharp learned of the opening and detailed Deputy Sheriffs Corless, Burbridge, Cutler and Butler to raid the place. One white man, a Japanese waiter and six women were found in the resort and were taken to the county jail. The women were charged with prostitution, and the two men with being vagrants. The house raided last night is the only one that has attempted to open a resort in the new red light district. Bonds of the women and men arrested last night were fixed at \$500 each. Not one of the eight persons arrested was able to furnish the amount and all were forced to remain in jail.

BUILDING PERMITS.

A. B. Hirth, city building inspector, has been able to show for the first week of the new year permits for buildings the valuation of which will exceed the first week of 1908 by \$27,000, and which total more than the whole month of January last year. There were thirteen permits issued last week for buildings to cost \$17,300. For the first week of January, 1908, the figures were about \$10,000, and for the entire month last year only \$23,659, giving a lead already for the present month of \$17,000 over the corresponding month of 1908.

HE NEEDS A GUARDIAN.

The business man who is too busy to look after his health and personal comfort needs a guardian.

To notice dandruff and falling hair is beneath his idea of business. Later when incurable baldness comes, he will waste money trying to overcome the result of his own neglect. Some one at home should look after him. At first sight dandruff—which is a contagious disease—Newbro's Herpicide should be used. It eradicates dandruff and stops falling hair by destroying the dandruff germ. It is a delightful hair dressing. STOPS ITCHING ALMOST INSTANTLY.

CHINESE COOK KILLED IN ALTA SNOWSLIDE

Lee Wah, the Chinese cook at the South Columbus at Alta, is the first snowslide victim of the winter. He was killed in his bunk in the kitchen of the boarding house at 10 o'clock last night. The slide was totally unexpected. It demolished the compressor house at the mine and crushed the kitchen like an eggshell. No other person was hurt. The damage is placed at \$1,000. A. O. Jacobson, superintendent of the South Columbus, came down from the mine in a sleigh yesterday.

New York, Jan. 9.—The colony of Venezuelan expatriates here, which has been rapidly dwindling since President Gomez took charge, was further depleted today with the sailing for Caracas of Caesar Zumeta, Guillermo Egea Mier and Hyacinth Lopez. All have interesting careers. Senor Zumeta, one of the best known writers on political subjects in South America, was most severely felt at Acapulco, in the state of Guerrero, and at Oaxaca, in the state of the same name. The damage was trivial and no fatalities have been reported.

Such of the Venezuelans that are left in New York are awaiting developments before returning.
